

LIGHTNING FAST SEARCH FOR THE ENTERPRISE

FAST. EASY. RELEVANT.

MaxxCAT's line of search appliances provides extreme performance at the industry's lowest price point. These turn-key solutions combine simplicity of installation and an intuitive API with state of the art features and a seamless upgrade path to high availability and clustered solutions.

HIGH PERFORMANCE SEARCH

Fastest search appliances in the industry, capable of serving 10's of thousands of user queries per minute. Our optimized hardware easily processes big query loads on large data sets instantly.

POWERFUL CRAWLING

Crawl websites, intranets, file systems and databases from a simple GUI control. Flexibly create heterogenous collections, set crawl schedules, and establish rules for including/excluding data in the index.

RELEVANT

Excellent natural relevance combined with meta data, faceting, search-as-you type, and query suggestions lead users to information they want.

EASY

GUI QuickStart feature allows you to quickly create and search data from any source in minutes.

CUSTOMIZABLE

Use our default templates, or easily customize your search with our developer friendly architecture. Easily integrates with HTML, CSS, JavaScript, Java, .NET, Perl and other frameworks.

MORE

- + Simple JSON output for easy integration
- + Simple APIs for both device control and query processing
- + Optional High Availability and RAID features
- + Turnkey Implementations available through MaxxCAT Professional Services

SPECS AND FEATURES

SEARCH APPLIANCES

	SB-255/SB-255d	SB-355/SB-355d	EX-5005	EX-6005
Price	\$3,495	\$4,495	\$9,995	\$18,995
Executed QPM	12,500	25,000	100,000	200,000
Maximum Searchable Documents	Unlimited			
Index Storage	250GB	500GB	2TB	4TB+
Index Speed	280 MB/minute	560 MB/minute	2,540 MB/minute	4,500 MB/minute
Simultaneous Crawls	10	16	32	64
Mount local file shares	—	✓	✓	
Mirrored Index Storage	—		OPTION	
Ethernet	100 Megabit		1 Gigabit	
Rack Size	1U (d is desktop tower form factor)		2U - 8U	
Power (120 V USA, 220 V Euro)	200 Watt		500 Watt	Dual 500 Watt
Data Formats	HTML, XML, Office, PDF, PPT, many others			
Support & Warranty	1-year email support plus software updates; 1-year hardware warranty			

ADVANCED OPTIONS FOR EX-SERIES APPLIANCES

Data Faceting	Slice any query result set into facets
Data Filtering	Search subsets of data
High Availability	Automatic load balancing and failover

BOBCAT DATABASE CONNECTOR (EX-SERIES ONLY)

Supported Databases	mySQL, sqlServer, Oracle
Throughput	1GB/Thread/Minute
Crawl Modes	Full, Incremental, Continuous
